## **Award winning filmmaker to visit Regina**

RPL Film Theatre is pleased to welcome award winning filmmaker Neal Livingston to Regina to present his film, *100 Short Stories*, at 7:00pm on Monday, May 29 at Central Library.

The veteran documentary director combines his twin loves — the environment and filmmaking — into one tale of trial and tribulation with *100 Short Stories*. The film recently won the 2017 Energy Award at the Cinema Verde Film Festival, one of the top six environmental film festivals in the United States.

*100 Short Stories* tracks the director's passionate, idealistic fight against the oil and gas interests in Cape Breton, and attempt to launch a wind energy project in Nova Scotia, addressing "opinions regarding governance, public policy, and what are sound ideas socially, environmentally and culturally," Livingston said.
